

tesa® StopWater Tape 56220

Product Information

tesa® StopWater is ultra-thin non-adhesive PTFE tape that is used in sealing pipe threads. Forming an insulating layer between the threads of a screw connection it will fill any existing gaps and thereby prevent any water from penetrating.

Main Application

- Self-bonding non-adhesive tape
- For permanently high resilience and long-term results
- Reliable sealing of screw threads, leaky faucets and valves
- Deformable and impermeable to water up to 7 bar
- Air and watertight seal

Technical information (average values)

The values in this section should be considered as average figures or typical only and should not be used for specification purposes.

Technical Data

• Material	Polytetrafluorethylene	• Tensile force	9N/mm ²
• Type of adhesive	Non-adhesive	• Elongation at break	15 %
• Colour	White	• Length	12m : 12m
• Total thickness	75 µm
